

## Documentation must be provided if you wish to add a spouse or dependent child to your health, dental or vision coverage.

Coverage can be added within one month (31 days max) of: 1) initial eligibility as a new hire, 2) a change in status to benefits-eligible, 3) a qualifying life event; or 4) during an announced open enrollment period. Enrollment is effective within the next available coverage start date – generally the first of the following month – and is not retroactive (exception for newborns).

All supporting documentation as described below must be submitted at the time of enrollment. Benefit enrollment forms to enroll dependents will not be accepted if documentation is not provided.

This certifies that all dependents covered under my health, dental or vision insurance are my legal dependents as defined below. I understand that insurance fraud is generally defined as the "intentional misrepresentation of material facts and circumstances to an insurance company to obtain payment that would not otherwise be made" and disciplinary action will be taken, up to and including termination, should this occur. In addition, I understand I will be held liable for any claims or fees incurred for the individual that is not a dependent.
