

Know your eligible & ineligible expenses

A UnitedHealthcare Company

If you have a health savings account (HSA) or flexible spending account (FSA), you can use pre-tax dollars to cover eligible expenses. To help better understand what is and isn't eligible, we've developed a list of both. For a more detailed list of eligible and ineligible expenses, log in to umr.com.

Final determination of coverage is made at the time a claim is received and processed. If a conflict exists between the information provided to you and the terms of the plan, the terms of the plan will control.
